# 3 DISCIPLINES OF GROWTH

## Increasing Capability

Refers to improving the skills, knowledge, and processes within your organization. It's about building a strong foundation for growth by investing in your team, refining your operations, and enhancing your ability to deliver value.

## Exploiting Network

This emphasizes the importance of leveraging relationships and connections to accelerate growth. This includes building strategic partnerships, collaborating with other businesses, and tapping into your network for expertise, resources, and opportunities.

## Harnessing Resources

This focuses on effectively utilizing and maximizing the resources available to your company. This encompasses financial capital, human capital, technology, and intellectual property. It's about optimizing resource allocation to fuel growth and achieve strategic goals.

**Additional human, institutional, and financial resources will be needed to support the process of "going to scale".**

**According The Book "Scaling Up" by Verne Harnish**

# THE 33% RULE

By **TAI LOPEZ**  
an American entrepreneur

01

**SPEND 33% OF YOUR TIME WITH PEOPLE BELOW YOU.**

These are people you can mentor and help and you will feel good about yourself.

**SPEND 33% WITH PEOPLE ON YOUR LIFE.**

These are mostly your friends and circle of influence.

02

03

**THE 33% WITH PEOPLE 10 OR 20 YEARS AHEAD YOU.**

They will make you feel uncomfortable but that's how you will grow.
